I am a Full Stack Developer with hands-on experience in building scalable and maintainable web applications using modern stacks like React, Next.js, Laravel, and Node.js. I have a proven track record delivering real-world solutions across industries—ranging from internal tools for universities to live performance dashboards for manufacturing. I thrive in fast-paced environments, learn quickly, and focus on writing clean, production-ready code that solves actual business problems.

EXPERIENCE

PT. Noxus Ideata Prima - Fullstack Programmer September - Present Tangerang, Indonesia

- Developed a company profile website using Next.js to deliver a responsive and modern user experience.
- Troubleshoot and fixed backend issues in the internal bug reporting system to improve stability and performance.
- Set up and managed development server environments to support continuous integration, smooth testing, and faster deployment workflows.
- Built backend services for a major state-owned enterprise (BUMN) client using Java, contributing to the development of a CRM system that improved operational efficiency and data management.

LLDIKTI V - Fullstack Programmer Internship MBKM September - December 2024 Yogyakarta, Indonesia

- Developed internal letter management system using React, TypeScript, Hono.js, PostgreSQL
- Built inter-institutional partnership directory app consuming external APIs
- Worked in agile environment with design and backend teams to ship scalable tools used across private universities

Teaching Assistant - Web Programming May - August 2024

Department of Informatics Engineering, Faculty of Industrial Technology Sultan Agung Islamic University

- Instructed 40+ students in building dynamic websites with PHP and CodeIgniter
- Led debugging sessions and mentored students on backend logic and MVC architecture

PT. Nihon Seiki Indonesia - Fullstack Web Developer Intern July - December 2023 Cikarang, Indonesia

- Developed 4 production-level internal web apps using Laravel, CodeIgniter, React, and Next.js
- Built real-time KPI dashboard visualizing multi-department operations
- Created smart warehouse system increasing space efficiency by 30%
- Engineered a camera-based NG detection system using OpenCV & Raspberry Pi to support Quality Control
- Collaborated directly with departments (QC, QA, Maintenance, Sales) to gather requirements and deliver tailored solutions

Teaching Assistant - Database Design May - July 2023

Department of Informatics Engineering, Faculty of Industrial Technology Sultan Agung Islamic University

- Taught MySQL fundamentals and relational schema design to 15+ students
- Guided normalization practices and evaluated SQL-based practical exams

TRAINING & CERTIFICATION

1. BUIDL YOUR WEB3 IDEAS WITH LISK by Pelita Bangsa Academy ([PBA Certification](#))
2. LEARN TO DEPLOY DAPP ON ICP by Pelita Bangsa Academy ([PBA Certification](#))
3. Fullstack Web Development by Otak Kanan ([Otak Kanan Certification](#))
4. Menjadi Back-End Developer Expert by Dicoding ([Dicoding Certification](#))
5. Architecting on AWS (Membangun Arsitektur Cloud di AWS) by Dicoding ([Dicoding Certification](#))
6. [More Certifications](#)

EDUCATION

Sultan Agung Islamic University (UNISSULA) September 2021 - June 2025 Bachelor of Computer Engineering (Informatics Engineering)

- GPA: 3.90 / 4.00
- Final Project: CNN-based Deepfake Attribution on StyleGAN2-Generated Faces

PROJECT

Parcelin Pack

A company profile website developed using React.js, designed to provide an elegant and responsive online presence for the client. The website ensures optimal performance, responsiveness, and user experience while effectively showcasing the company's brand and services.

live website: <https://parcelinpack.id/>

- Tech Stack: **React, Tailwind**

SKILL

Programming Languages: JavaScript, PHP, Java, HTML, CSS, Typescript, Python, Solidity

Framework: React, NextJS, ExpressJS, Tailwind, Laravel, CodeIgniter, Java Spring Boot

Databases: MySQL, PostgreSQL, MongoDB, Oracle

Tool: Git, Github, postman, Docker

Other Skills: Agile, REST API, MVC Architecture, Clean Architecture, Multi Maven Module, Debugging

Soft Skill: Problem Solving, Team Collaboration, Adaptability, Communication, Time Management & Execution

Language: Indonesian (Active), English (Passive)
